This is a non-final office action for application number 09/910,655, System for Removably and Adjustably Mounting a Device on a Surface, filed on July 20, 2001.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 24-30 have been canceled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reasons for the allowance of the claims in this application are the limitations of one or more clamps being formed with a leg having a base, a descending member monolithically extending from the base, and an ascending member monolithically extending from the base in a direction substantially opposite the direction of the descending member, now included in independent claims 8 and 36 and in combination with the other elements cited in the claims respectively, which is not found in the prior art of record; and a footing grid comprising a means for variably positioning an at least one dual track rail on an at least one keeper and one or more clamps variably positionable on the dual track and the footing grid for demountably securing a module to

the footing grid, essentially included in independent claims 10 and 38 and in combination with the other elements recited in the claims respectively, which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 24-30 have been canceled as being drawn to a non-allowable invention which was withdrawn from consideration without traverse.
